

QUANTUM HEALING HYPNOSIS TECHNIQUE

What is QHHT?

Quantum Healing Hypnosis Technique (QHHT) is a powerful method of hypnosis that bridges you to your Higher Self (HS) or Subconscious Mind (SC). This technique guides you into the deepest somnambulistic state of trance, associated with theta brainwave activity.

In this blissful state, your consciousness operates at a quantum level, granting access to knowledge beyond the physical realm and enabling the exploration of past lives.

QHHT offers a pathway to transformative healing—whether it's overcoming illness, releasing limiting beliefs, mending relationships, breaking patterns, transmuting trauma, uncovering your soul's purpose, connecting with Source/Light/God, or experiencing life-altering revelations.

QHHT is the most rewarding investment in your spiritual evolution. It empowers you to reclaim your wholeness, be led by inner wisdom, and unlock boundless potential in just one session. Every healee is a profound reminder of my deep gratitude for the visionary Dolores Cannon, whose gift of QHHT continues to transform lives.

Session Information

A typical QHHT session lasts between 5 to 6 hrs, with the client under hypnosis between 1.5 - 3 hrs. (In rare cases 3 to 4 hours.) We spend the first 1 hour or so going over the questions the client has prepared to be asked during the session. In the last 30 to 45 minutes after coming out of the theta state of hypnosis, we review the session.

Based on the time spent on each past life, we may visit 1 to 3 past lives during a typical session. The past lives the client visits are all chosen by the client's Higher Self, as it knows which lives must be visited at the time of the session.

After the past lives, we engage with the Higher Self seeking answers and guidance to specific questions the client has prepared.

Before the Q&A with the Higher Self starts, the HS will do a full body scan of the client. This is the most fascinating and profound segment in session, as the HS instantaneously heals what was, is, could be, and will be imbalances and diseases.

Notes

- QHHT does not require multiple sessions or levels of healing. Just one session. (for most, it is a once-in-a-lifetime session).
- QHHT must be always done in person. (no remote sessions with Skype, Zoom, WhatsApp or other platforms)
- Though the session duration is 5-6 hours, I recommend that the client keeps the entire day free for post-session relaxation, contemplation, and integration.
- The client must speak and understand English.
