

RECONNECTIVE HEALING®

An Intelligent Spectrum of Healing Energy, Light, and Information.

Reconnective Healing is an invitation to return to your natural state of wholeness. It brings forth profound healings and transformations as one aligns with the powerful and intelligent frequencies of Energy, Light, and Information.

Serendipitously discovered by Dr. Eric Pearl in 1993, Reconnective Healing is a phenomenal, hands-free approach to restoring balance and harmony in the body, mind, and spirit.

What Makes Reconnective Healing Unique?

It is a return to an optimal state of balance, where what is no longer in resonance simply vibrates out. Distance is no barrier to its efficacy and sessions can be experienced in person or remotely. Reconnective Healing transcends all traditional energy healing techniques by going beyond methods or structured approaches.

The Intelligent Spectrum of Frequencies

The spectrum of Reconnective Healing frequencies facilitate healings that are often instantaneous and lifelong. As we entrain with these frequencies, our bodies naturally begin to emit and vibrate at a higher level of light, creating greater coherence within us.

Reconnective Healing is neither a therapy nor a treatment, as it does not focus on symptoms. In Reconnective Healing we do not diagnose or treat. We simply interact with the spectrum of frequencies which brings a person to an optimal state of balance. In that optimal balance, phenomenal healings that are often instantaneous and life long unfold. It unlocks our innate ability to heal at all levels. It is not something we do. It is something we allow.

Scientific Validation

Reconnective Healing has been confirmed and documented in more than a dozen international studies. Leading the way are an international team of world-renowned scientists, William Tiller, PhD, Gary Schwartz, PhD, Konstantin Korotkov, PhD, Glen Rein, PhD, Ann Baldwin, PhD, and Melinda Connor, PhD. The results of this research are attracting the attention of the best and brightest in the scientific community.

Research Highlights

- A measurable restructuring of DNA.
- Significantly higher levels of bio-photonic light emitted by the body.
- Enhanced coherence and balance at a cellular level.
- Practitioner's heart waves synchronizing with the receiver's brainwaves.

Benefits of Reconnective Healing®

There is absolutely nothing that is impossible for the power and potential of pure consciousness. Many have experienced complete healings in:

- Chronic pain and fatigue
- Anxiety, stress, and depression
- Addictions and trauma
- Sports injuries and post surgery recoveries
- Conditions like cerebral palsy, epilepsy, fibromyalgia, cancer, and autoimmune diseases

What to Expect in a Session

Each 40-minute session is hands-off and non-invasive. Simply relax on a comfortable flat surface, let go, and observe as the intelligence of the benevolent frequencies guide the process. Though every journey is unique, many experience sensations like vibrations, colors, sounds, scents and visions.

Reconnective Healing transcends time and space, making remote sessions just as effective as in-person ones. Often, just 1 session activates a lasting shift, though some may benefit from up to 3 sessions. Once these frequencies are introduced, they continue to work on helping you align with your highest potential: *life progress*.

Investment Information

Investment: US\$ 100
(One Hundred United States Dollars)

The session investment must be deposited and realized in my account at the UNFCU (United Nations Federal Credit Union), before having the date and time confirmed for a session.

Account information will be provided once the client decides to have a session.
